

Dear Families,

We are so excited to start our new class! We have some friends that have already started in our school and will transition to our ROBOT room. Others are new to the school. We will explore the Robot Room together!

We will start our month talking about, what else?—**Robots!** We'll learn some neat facts about them and see how many we can count in the classroom!

The second week of the month is all about **Apples**. Fall gives us lots of them so we will experiment with them in all five senses—of course tasting is the most fun this week!

Who doesn't love **Construction**? We will all become builders as we explore the different machines this week!

Do you have a family **Pet**? We will all have the opportunity to share this week and may even learn some of our friends have some unique ones!

We're going to have a wonderful month of fun in the ROBOTS room!

Ms. Taryn

THE CHILDREN'S CAMPUS
THREE YEAR OLD PROGRAM:
ROBOT ROOM
SEPTEMBER NEWSLETTER

Weekly Themes:

September 4 - 8:	Robots
September 11 – 15:	Apples
September 18 - 22:	Construction
September 25 – 29:	Pets

Home Connection:

Accidents do happen! Please remember to have a complete change of clothes (underpants, socks shorts and a shirt) in your child's cubby.

We appreciate your assistance in working at home with your child on all aspects of pottying self-help skills.

Reminders:

Monday, September 4th: Children's Campus will be closed in observance of Labor Day.

Wednesday, September 6th : Join us for our Curriculum Night for the Three Year old Program!
