***Individual Routines** consist of diapering and / or toileting all day long when the child needs it. Diapers will be checked and/or changed every two hours.

***Weather permitting:** All children go outdoors every day unless there is active precipitation. There is no bad weather just bad clothing. When weather does not permit outside we use the gross motor room

***Free Play** consists of all children having access to all the activity areas and toys all day. Teachers will add activities and toys to help stimulate each child's development
