

**THE CHILDREN'S CAMPUS  
3-YEAR-OLD PROGRAM  
AUGUST NEWSLETTER**

Dear Parents,

Time is flying by and the friends are adjusting well to their new class. They are showing so much developmental growth and awareness of classroom expectations and independency. They are participating more in large and small group and circle time activities.

In the month of August, the friends will have another week full of learning and excitement. They will learn about the importance of **Exercise**, and how to keep their bodies healthy through **Sports** and healthy eating habits. They will learn all about the outdoor adventure of **Camping**, make S'mores and how to protect our forest from fires.

Later during the month, the friends will learn about **Lakes, Rivers** and **Ponds**. They will learn about water pollution and ways we can help keep our bodies of water safe for animals as well as people. Ending the week, the friends will talk about the different kinds of **Forest Animals**, their behavior, what they eat and how to be safe if they ever encounter one while on a forest journey. We are on our way to greater things. Stay Tuned

-Ms. Nicole and Ms. Ariel-
