

**THE CHILDREN'S CAMPUS**  
**MS. JAMIE & MS. CAROL**  
**MARCH NEWSLETTER**

Dear Families,

We are looking forward to this fun month of activities! Our first week, will be all about shapes and patterns. We will explore all aspects of shapes. We will look for shapes all over the classroom and we will have a shape hunt outside.

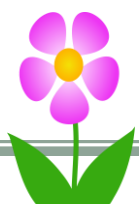

During our second week, we will discuss weather and have the opportunity to experience the changing season outdoors. We will talk about the daily forecast and if it is going to be sunny, rainy, cloudy or windy. Spring is almost here, and we are very excited about that. Over the past weeks it has rained a lot, so we have had the opportunity to talk about what rain does and how it helps plants grow.

We will then move from weather to Welcome Spring by discussing the signs of the changing season and changes in the weather. Spring is also a great time to celebrate the greatness of this wonderful season. It is the beginning of new things.

Our final week in March, we will learn all about birds and go on some fun outdoor explorations. Birds are sure interesting creatures. They are quite a sight to see. We will sort birds by color and shape. We will discuss birds that do not fly. We will do art activities and manipulate different items to help us explore our themes.

Happy March Everyone!

Ms. Jamie and Ms. Carol

**Weekly Themes:**

March 2-6: Shapes and Patterns

March 9-13: What's the Weather?

March 16-20: Welcome Spring!

March 23-27: Birds

**Home Connection:**

*Please continue to read to your children and ask them open-ended questions.*

*Cubbies: Our space is limited so please take-home additional jackets left in your child's cubby. They only need one full change of clothing and a coat. Also, your child may have one small blanket and stuff animal, if they wish to have one.*

**Reminders:**

*Please keep in mind, we play outside Daily unless we are under a weather advisory.*

*Please send in appropriate attire and accessories.*
